Vision

To impart essential education, knowledge, skills and values for development of sustainable communities.

Mission

To create new benchmark in exemplary education driven by consistent commitment towards providing an environment that fosters competitiveness, creative thinking and innovation to promote holistic personality development for nurturing future leaders.

**“Creativity is just connecting things.
When you ask creative people
how they did something,
they feel a little guilty because they
didn't really do it, they just saw something.
It seemed obvious to them after a while.
That's because they were
able to connect experiences
they've had and synthesize new things.”**
